### **DETAILED ACTION**

1. An election of restriction requirement has been received on 2/28/03. However, after further examination, examiner found that further restriction requirement is required for the elected group I, consisting of claims 1-45. Therefore, examiner is now withdrawing the restriction requirement that was previously made. A new restriction requirement is enclosed.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1-10, 18-41 drawn to structure layout of a multiple-state memory cell, classified in class 257, subclass 296.
- II. Claim 11-17, and 42-45, drawn to the operation of a multiple-state memory cell, classified in class 365, subclass 185.03.
- III. Claim 46-56, drawn to the formation process of a multiple state memory cell, classified in class 438, subclass 257.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II/III are related as apparatus and product made/process of making. The inventions in this relationship are distinct if either or both of the following can be shown: (1) that the apparatus as claimed is not an obvious apparatus for making the product and the apparatus can be used for making a different product or (2) that the product as claimed can be made by another and materially different apparatus (MPEP § 806.05(g)). In this case invention I does not required the structure layout of a multiple state memory cell nor the process of making a multiple state memory cell.

Art Unit: 2818

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Connie c. Yoha whose telephone number is (703)-306-5731. The examiner can normally be reached on 9-5 M-F.
